

Meeting 09/10/2019

Stephen Coleman

16/10/2019

Summary

Initial meeting.

- Discussed a loose plan for the first year of the PhD.
- Signed up for Biology of Disease and planned to look into other courses.
- Suggested chin-wag with Kath and Camilla and Sylvia and Paul.

First year plan

1. October - December: Reading of integrative clustering methods. Create summary documents with a mind to the first year report.
2. January - March: Turn Consensus clustering of MDI into a paper.
3. April - August: Upgrade and plan year two.
