Meeting 23/10/2019

Stephen Coleman

10/23/2019

Summary

- Discussed the Clusternomics model and specifically the problems with the R package.
  - Recommended to ask Paul if model is woth the time to fix code (in his opinion);
  - If so, try looking at an older release and checking the results of the tutorial with this.
- Plan is to produce a markdown of Bayesian Consensus Clustering (and then iCluster).
